Zoho BBA Aptitude Practice Book

Topics: Percentages, Ratios, Profit & Loss, Averages, Time & Work, Time-Speed-Distance, Number Series, Number System, Logical Reasoning.

Question 1
Sample aptitude question #1. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 2
Sample aptitude question #2. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 3
Sample aptitude question #3. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 4
Sample aptitude question #4. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 5
Sample aptitude question #5. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 6
Sample aptitude question #6. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 7
Sample aptitude question #7. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 8
Sample aptitude question #8. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 9
Sample aptitude question #9. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 10
Sample aptitude question #10. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 11
Sample aptitude question #11. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 12
Sample aptitude question #12. Practice topics rotate among percentages, ratios, profit & loss,

averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 13
Sample aptitude question #13. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 14
Sample aptitude question #14. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 15
Sample aptitude question #15. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 16
Sample aptitude question #16. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 17
Sample aptitude question #17. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 18
Sample aptitude question #18. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 19
Sample aptitude question #19. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 20
Sample aptitude question #20. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 21
Sample aptitude question #21. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 22
Sample aptitude question #22. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 23
Sample aptitude question #23. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 24
Sample aptitude question #24. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 25
Sample aptitude question #25. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 26
Sample aptitude question #26. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 27
Sample aptitude question #27. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 28
Sample aptitude question #28. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 29
Sample aptitude question #29. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.

Question 30
Sample aptitude question #30. Practice topics rotate among percentages, ratios, profit & loss, averages, time & work, time-speed-distance, number series, logical reasoning. Write your solution before checking explanations.
